MONEY MARKET.

Monday, June 21-6 P. M. There is nothing new in the stock market. Prices wer buoyant at the first board, and the d mand for all th leading fancies was moderately active. The greatest ad vance was in Pennsylvania Coul Company, it having im proved 4 per cent since Saturday. North American Tru-Company went up 1% per cent. We have not heard any thing lately about a decision, but there must be one in an ticipation. The sales within the past week or two have been only about one hundred shares. Holders are askin quite an advance on current quotations. Eric Railroa advanced % per cent. and closed firm. N. J. Zinc is looking up. An improvement of 14 per cent was realized to-day, with cales to some extent. Phonix Coal advanced 3/2 per cent. Only one small lot changed hands. The street was active, but political matters appeared to absorb considerable attention. The money market con tinues flat. There are no indications of any change is Gnancial matters-no probability of any let up in the sup ply of capital seeking employment. Rates of interest ar merely nominal and we have heard of loans being mad at four per cent. This will scon be an outside rate, and capitalists will be glad to get even that. There is u doubt in our mind but that all kinds of securities, payin Interest on dividends, at the rate of six per cent per annum, will command prices considerably above those no

At the second board the market was buoyant, and nearly every stock sold shows an improvement. Com-pared with prices current in the morning, Nicaragus Transit Company advanced % per cent. The arrival o the steamship Frometheus, from San Juan, with abou six hundred passengers, and the departure of the steam ship Daniel Webster, for San Juan, with about the same number, has renewed the confidence of holders of this stock, and prices will probably run rapidly up. Eric Railroad advanced 🐕 per cent; Panama Railroad, 🎉 Dauphin Coal. 4 per cent; North American Trust, Canton Company, 16; Delaware and Hudson, 16; Penn sylvania Coal Company, 1; New Jersey Zinc, 16. The

market closed firm, with an upward tendency.

The Metropolitan Bank has declared a semi-annua divident of four per cent. The Harlem Railroad Com-pany will pay, on the 6th of July, 4 per cent on the pre

The dividend declared by the Western Railroad Company-3% per cent-noticed a few days since, instead of per cent, as before, was in consequence of the reduced income, caused by competing lines taking freight at very low prices, which attracted it to other routes. The Western pays but five per cent interest on its debts, other wise it could not pay the present dividend, as it is obliged by law to reserve \$50,000 per year for the liquidation of the mortgages, for five millions. The sinking funds now amount to over a million of dollars, which is equal to \$20 per share on the 50,000 shares of capits stock. The gross earnings of the read for the were over \$1,300,000, and equal to \$110,000 per

The receipts at the office of the Assistant this port to-day amounted to \$83,094 75 \$627.519 86-balance, \$3.810.569 06.

The receipts of the Saratoga and Washington Radread Company during the month of May, 1852; amount d to \$15,159 88, against \$14,750 79; showing an increase o \$419 09. The completion of a new road to compete with this for the through northern travel, and great reduction of fare on this road in consequence, has lessened the receipts from passengers a little from what it would other wise have been. But the number of passengers is nearly as great as last year, and the increase in freight has been very large.

The Delaware and Hudson Coal Company, as we noticed a day or two since, have advanced the price of their coal of all sizes. 25 cents per ton; and on the 1st of July, the coal charges are to be advanced 10 cents per ton more making an advance of 35 cents after the expiration of this month. So pressed is the company with orders for im-mediate delivery that we are advised they are now refusing to receive orders for delivery in July at the 35 cents

By a telegraphic despatch from Chicago, we learn that the work, as advertised for contract by the Illinois Cen tral Railroad Company, was awarded as follows :- 1st div from Cairo, 60 miles north, to Messrs, Carney, Ellis & Co. 8th div., from Freeport to Galena, to Dubuque, about 67 miles, to Messra. Dutcher, Brigham & Co.: 9th div., from Calumeteriver to the Kaukakee, about 45 miles, to Messrs Clark. Pluer & Co.

The total value of the foreign exports from Baltimor for the week ending on Thursday, was \$194,274.59. The export of breadstuffs for the week comprises 10 911 bar-rels of flour, 681 barrels and 27,446 bushels of corn meal The export of tobacco amounted to 2,085 hogsheads. The Rochester and Syracuse Rallroad Company have

called for two further instalments on the scrip stockten dollars on each share to be paid on the 1st of July pext, and twenty dollars on the 20th of July next. The bids for the mortgage bonds of the Evansville and
